This cDNA sequence was assembled from public domain ESTs and single

pass sequencing reads from expressed DNA templates, aligned to the

genomic DNA sequence from the bacterial clone 337018 (AL008726).
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  Novel human gene mapping to chomosome 20 AL591562
